DEDICATION

DR. WILBUR O. RAMSEY

Professor and Chairman

Department of Restorative Dentistry

It is very difficult to find a man who is admired and respected by the faculty, the administration, and the students. Dr. Wilbur Ramsey is this rare individual. Throughout the years, he has served as an inspiration for all of us. During our four years at BCDS, Dr. Ramsey has amazed us with his knowledge and impressed us with his clinical judgment. He has sometimes lectured us, sometimes questioned us, sometimes demanded much of us; but he has never failed to listen to our problems in clinic with understanding and encouragement. Also, his vast knowledge, ready wit, and sincere interest in our education have made him outstanding. He is a true teacher.

The BCDS Class of 1971 is happy and honored to dedicate The 1971 MIRROR to Dr. Wilbur O. Ramsey.

HONORARY SENIOR CLASS PRESIDENT

DR. JOSÉ DIAZ

Assistant Professor

Department of Restorative Dentistry

To a bewildered Junior, clinic is, at best, confusing. Once we got our units on and our chairs upright, we were often faced with questions that G.V. Black would be hard put to answer. Any sign of help from a Senior or faculty member was greatly appreciated.

Throughout our clinic years there was one man who was a constant friend. There was one man who gave up lunch time, break time, and private time to stand with us. We would gladly make him a member of our Class, computer number and all, but we feel that other classes should benefit from his compassionate and excellent instruction. We are proud to announce our Honorary Senior Class President, Dr. José Díaz.

SENIOR CLASS REFLECTIONS

Hayden-Harris Hall was at long last completed and dedicated during 1970-1971. Along with the new School came new ideas and concepts of teaching. The Class of '71, the first graduating class from this new facility, has experienced clinical and academic courses in both the old and new schools. We have helped initiate the new equipment, put up with the old equipment, and, wherever necessary, have innovated our own equipment (Boil-out units).

The Class of '71, at times in the past four years, has been classified as "straight guys" by the lower classmen, "radicals" by the faculty, and "missing" by the Department of Community Dentistry.

Skit Nights have been dominated by the Class of '71. Our freshman year, we should have won; our sophomore year, we did win; last year, we almost won; and this year, we're not keeping score. With such a commanding record, we list for posterity our skits of "My Fair Freshmen," "Cramalot," and "What the School Needs Now."

We have seen the addition of a Dental Hygiene Program to the School, a new lounge which is smaller than the locker rooms, classrooms with soft seats, a new coke machine that is worse than the old one, and a system of lights for calling instructors which has baffled, if not completely destroyed, even the most logical military minds.

Our Class now leaves this School to enter the dental profession as colleagues of those who have taught us these past four years. We have added something to BCDS, in spite of ourselves; and we shall continue to create the atmosphere and attitudes of personal understanding we desired as students. If we were not pleased with our lot, we should now remember those who come behind us and work to make our solutions to those problems a reality for them.

FIRST FLOOR
 The first floor is wholly dedicated to undergraduate clinical teaching. The major portion of the floor is occupied by two 128-cubicle general practice clinics separated by central clinical services. Each of the two clinics has four teaching modules of 32 cubicles. Dental students are permanently assigned to cubicles for their third and fourth years of clinical study. Patients enter the clinic from the south side of the building where there is a waiting room, a control center for patient records, and a two-way public address system. Screening examinations are made in the oral diagnosis clinic which has facilities for general medical evaluation and laboratory tests. The floor also has a social services department, a fully equipped radiology area for all patients, and an oral surgery clinic for emergency patients. In the southeast corner is a community dentistry clinic equipped to serve handicapped patients.

THIRD FLOOR

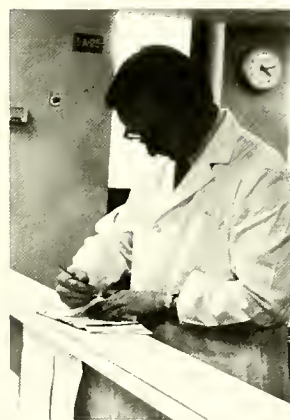

Faculty offices, laboratory space for clinical departments, a specialty clinic and a faculty group practice clinic are the main facilities of the third floor. Each full-time faculty member has a private office. In addition, laboratory spaces are available to each department for research activities, preparation of teaching material, faculty review of technical procedures, and undergraduate student research. The specialty clinic area consists of 55 treatment rooms serving as dental operators for patients referred from other clinics. The faculty group practice clinic consists of 15 treatment rooms, two x-ray rooms, and other supporting space.

FOURTH FLOOR
 The basic science faculty, research facilities, and administrative offices are on the fourth floor. The inner core of this floor (as well as a portion of the third and fifth floors) has a number of corridor-like spaces labeled utility cores. This allows conversion of office space to laboratory space at minimal cost since extension of water, electricity, gas, air, etc., can be carried out directly from the core. Two multidiscipline laboratories are located on this floor to house elective and graduate courses. The electron microscopy area can accommodate four microscopes. Special facilities, such as tissue culture laboratory, electrophoresis laboratory and ultracentrifuge laboratory, will be used for both teaching and research. The administrative space accommodates the dean and other administrative personnel. A biostatistics section houses keypunch and card sorting equipment for evaluating student progress and developing research projects. It will eventually connect to the Health Sciences Computer Center.

GROUND FLOOR
 Major student facilities are on the ground floor. A student lounge, space for a self-instruction center and historical displays as well as locker and toilet facilities for both male and female students are reached by a central student corridor. A 24-chair preventive dentistry clinic, where all regularly admitted patients are seen after the initial visits is on the south side of the floor. Multi-disciplinary laboratory spaces for preclinical programs in dental hygiene and dental assisting are on this floor. Also on the south side is the visual aids section including the heart of the closed circuit television system which covers the entire building.

Treasurer Warren F. Gabaree
Historian Lawrence A. Kaplan

No summer clinic fellows; we are moving into the new school . . . no summer clinic; we want you to be able to earn some money. This is the way junior year began and will end. In between we had a jam-packed year. Every Friday we raced to the sheets to sign up for appointments . . . the first few months we just kept picking with the explorers to make sure it was decayed, then plunged head first into the old O.C. We had our little scandals; we had our confrontations (thank you C.D.); and when it was all over, we were back again wondering what happened. We learned a lot, relearned a lot, and found out how much we haven't learned; but we are ready for the last big year . . .

P.S. Module 3 will not get the award this year for the closest student-teacher ratio!!

Third Row: Braun, Scerba, Pelczar, Quinn, Edelman, Gabaree, Blevins, Gershen, Fletcher, Floyd, Dye, Gurney, Agnini, Fine.
Second Row: Bloom, Aumiller, Berger, Feldman, Fields, Gingell, Faber, Hoffman, Chioariu, Berryman, Bigham, Flynn, Nowakowski, Hooper, Goloskov, Goodman.
First Row: Bauer, D. Jackson, Diamond, Dorr, Carruth, Davis, Blood, Danenberg, Bowles, Burk, Cosco.

THE JUNIORS

First Row: Lustman, McAllister, Kay, Weinberg, McGonigle, L. Kaplan, L. Rosenthal, Schwartz, Marks, Sindall, White.
Second Row: Winn, Yeumans, Richards, Rosenbloom, M. Jackson, Lebowitz, Kaminski, Pelczar, Milleson, Quinn, Kimmel, Moskowitz, Vine.
Third Row: Maddox, Nuri, Tapia, Gershen, Nowakowski, Willis, Raksin, Lewis, Scerba, Jones, Robbins, Mrazik.

THE SOPHOMORE CLASS

President Gordon G. Keyes
Vice President Barry P. Setzer
Secretary Ralph H. Civjan
Treasurer Michael E. Anderson
Social Chairman Thomas J. Fenlon

Simmer down! Another eventful year has passed as we graduate from our labs to the clinics.

This past year marked the demise of the letter grading system and the birth of PAH.

We proved that lack of sunshine does not cause ricketts and institutionalized the word "throat."

We beautified our labs with subversive pictures and let our hair slowly ease over collars and ears.

The Class of 1973 has proven to be a dynamic, individualistic, progressive, and highly academic group, who will do much to help shape dentistry in the future and keep it responsive to the changing times.

First Row: Goodman, Bray, Boyars, Cohen, Banner, Lamb, Kotzias, Bers, Cullen, Klein, Graham.
Second Row: Deery, Crowe, Holmes, Dreckster, Gang, Baguhn, Knight, Juilfs.
Third Row: Brewer, Testa, Girlinghouse, Adler, Bealefeld, Bartro, Bartlett, Haggerty, Civjan, Heise, Keeler.
Fourth Row: Eisen, Dempsey, Fechter, Fenlon, Hoover, Little, LeBorys, Davenport.

THE SOPHOMORES

Left to Right: Hanover, Koenig, Deery, Prince, Talkin, Wiltison, Wright, Liszewski, Zalucky, Rohter, McCaffrey, Olson, Hedstrom, Ripps, Stang, McClure, Scoppettuolo, Cooper, Namoff, Swindle, Washington, Russo, Testa, Taylor, Schulman, Oberman, Mew, Milhauser, Slade, Shofnos, Levinson, Rosen, Setzer, Malinow, Morganstein.

Oral physiotherapy doesn't hurt.

B.D.S.

THE SOPHOMORES

You really want me to grade this?

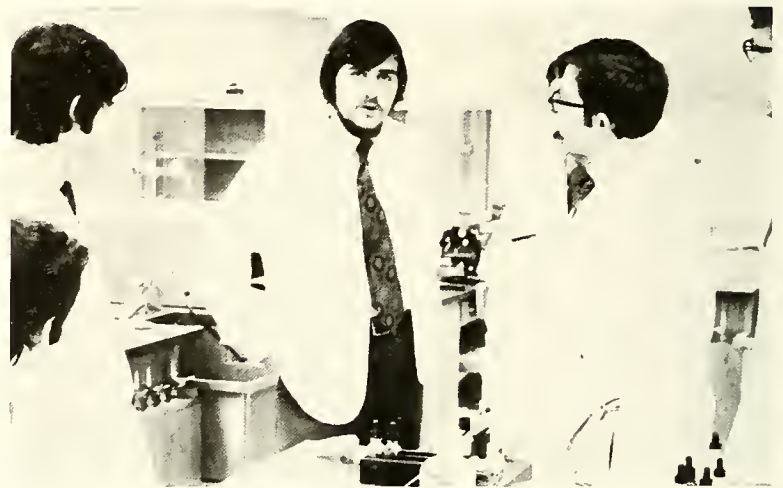

You know what you can do with this rubber base syringe when you're finished injecting?

Dr. Shay thinks he saw it.

So you're thinking about getting a haircut this year.

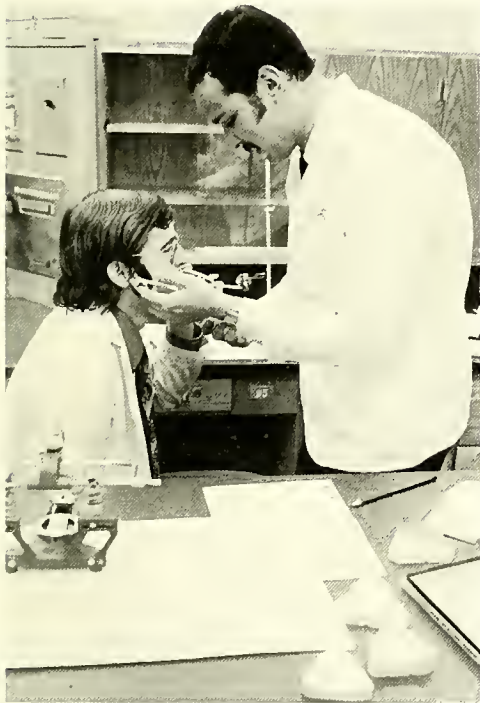

Let me ask you a question.

I still can't see the caries.

THE SOPHOMORES

Let me grab a quickie breakfast before someone comes.

Gee, I never scaled by Braille before.

THE FRESHMAN CLASS

President Burt A. Jordan
Vice President Howard M. Davis
Secretary Mark E. LeMar
Treasurer Howard J. Hoffman

New Class – New School – New Ideas – New Era in Dentistry –

There's a special nervousness, optimism, and anxiety within each freshman class – we were no different. We . . .

– *Nervously* queried upperclassmen about texts and tests.

– *Optimistically* rushed to buy supplies, get our medical examinations, and meet our first chores.

– *Anxiety* began as the soon-to-be admired (though not then) lecturer announced: “You should have read Chapters 1, 2, 3, 4, 5 and 6 in *Ham's Histology* by this lecture.”

And then we sent “our professor” to arbitrate and arbitrate: “Dr. _____, the freshmen class would appreciate your cooperation in solving . . . About the next practical examination, an extra weekend to prepare would . . .”

First Row: Lauterbach, Corbin, Cox, Golden, Marks, Cohan, Scott, Crawford, Berne, Blanchette, Goldberg.
Second Row: Braverman, Katz, Hightower, Whitney, L'Heureux, Bobbitt, Roberts, Edelstein, Mercer, Hnarakis.
Third Row: M. Goodman, Kodeck, Burnette, Ciminiello, McManama, Jordan, Kale, Davis, Eskow, Garrigan, Hesse, P. Miller, Leonard, Cohen.
Fourth Row: Tullner, Lee, Birkitt, Mark, B. Goodman, Kessler, Jenkins, Dennison, Leboe, Hoffman, Morgan, Massing, Metz, Fryling, Gertzberg.
Fifth Row: Kusnick, Harkins, Levy, LeMar, Berman, Strong, DeScherer, Duguid, Donoho.

THE FRESHMEN

First Row: Wimer, Weiser, Taff, Molino, Schwartz, Steinberg, Sugar, Sullivan, Sachs, Sattler, Senk, Selle.
Second Row: Oppenheim, Shernoff, Rounsaville, Nankivell, Victor, R. Singer, S. Singer, Strauss, Ross, Santacroce, Rosenberg.

Fourth Row: Golden, Non, Wyckoff, Roth, Strozykowski, Strong, Petrazzuolo, Palank.
Fifth Row: Torres-Diaz, Tomeo, Tami, Stein, Wilder, Smith, Raim.

You know, Larry, you do great work!

As you notice, the inferior border of the ramus adjoins . . .

THE FRESHMEN

"How can you guys sit there and smile?"

"Let me speak to the President please . . . Hello Dick . . ."

Hell no, I don't feel like playing patient.

Burt, have you ever considered medical school?

I still don't see why he couldn't give us a handout on the lecture.

I still don't see why the pattern breaks at the isthmus.

"Hey Bill, did Piavis say we had to put this back together?"

THE FRESHMEN

The cheek bone is connected to the chin bone . . . Or is it . . . ?

And if we run out of spaces, we can always use the ceiling.

DEPARTMENT OF DENTAL HYGIENE

The newest element of the University of Maryland School of Dentistry – Dental Hygiene Students. Here for the third and fourth years of their four-year baccalaureate program, they share in the rugged 8-5 schedule of classes and clinical work. Extracurricularly, they are involved in JADHA,

student government, table clinics, field trips to hospitals, poverty areas and public health agencies, and raffles; were represented at the ADA-ADHA 1970 National Convention in Las Vegas; and are preparing a paper to be presented at the 1971 ADA National Convention.

UNIVERSITY OF MARYLAND STUDENT DENTAL ASSOCIATION

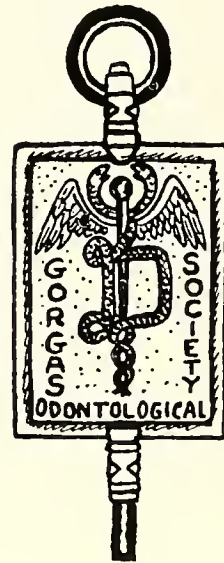

This year the Student Dental Association: expanded the Student Council, rewrote the SDA Constitution, revised the Code of Conduct, proposed new student appearance guidelines, participated in the State Dental Association, revamped the social program, resolved to place students on the Faculty Council, gave a tape recorder to the School so that music could be played in the clinics, presented oral hygiene programs for elementary school children, gave a gift to the Peoples' Free Medical Clinic for a dental office, had the privilege of having Dr. Mark Wagner as a Faculty Advisor, and became expert in giving tours of the New Building.

It was a good start, but there is much more to be done.

GORGAS ODONTOLOGICAL SOCIETY

This past school year the Gorgas Odontological Society became an active organization in the affairs of the school. We felt it the obligation of a scholastic honorary society to provide tutoring for students and began a successful program for freshmen. In addition, speakers from outside the school were provided for members. We hope to help implement the dental school free clinic and continue to be an innovator in extracurricular programs.

It is our pleasure to have Dr. José H. Diaz as Faculty Advisor.

GAMMA PI DELTA

Gamma Pi Delta is an honorary student dental society chartered in 1965 to honor Dr. Grayson W. Gaver, who dedicated his life to prosthetic dentistry. Membership in the society is extended to those students who maintain an average of B or higher in prosthetic dentistry.

The objectives of Gamma Pi Delta is the advancement of prosthetic dentistry through the presentation of lectures, table clinics, and other academic activities; to stimulate a student interest; and to offer additional learning to those with an interest in prosthetics.

The Society sponsors a series of monthly lectures relating to the practice of prosthetic dentistry. These lectures are open to the entire student body.

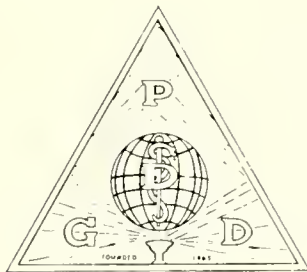

Faculty advisors for the Society are Dr. William B. Finagin and Dr. Errol L. Reese.

AISENBERG RESEARCH SOCIETY

The Aisenberg Research Society was founded on the belief that stimulating interest in dental research is necessary to the growth of our profession. Membership is drawn from students with previous research experience, especially in summer dental research, and those who show interest by giving scientific presentations.

The program is concerned with promoting student interest in table clinic presentations. This includes the Baltimore Campus as well as local, state, and regional dental meetings. This program also provides an area in which students may gain valuable experience in the basic sciences or clinical presentations, exchange ideas with other students and practitioners, and broaden the base of his general dental knowledge. The Faculty Advisor is Dr. Stewart Shapiro.

AMERICAN SOCIETY OF DENTISTRY FOR CHILDREN

The Maryland Student Branch of the American Society of Dentistry for Children was founded in December, 1968. Its purposes are to create an interest in dental procedures in children, to enhance the ability of the general practitioner in his work with children, and to stimulate interest in Pedodontics as a specialty. These purposes are fulfilled by means of discussions with general practitioners and specialists from the Baltimore-Washington area. The Faculty Advisor is Dr. Mark Wagner.

DIAGNOSIS STUDY CLUB

The Diagnosis Study Club, founded in 1970, has as its goal the continuing education of our student body in the diseases of the oral cavity and oral manifestations of systemic diseases. Periodic meetings are held to discuss topics of interest, show slides, and present guests learned in the field of Oral Diagnosis. Through this it is hoped the student may gain greater insight into his part in the total health scheme. The Faculty Advisor is Dr. John F. Hasler.

The Dental Wives Auxiliary was formed in 1966 by a small group of interested wives. Its goals were to enlighten the wives in varied aspects of their husbands profession and promote the expansion of dental health education to the public. Each year the group has grown both in size and enthusiasm and is now the largest student dental wives organization in the country.

STUDENT-FACULTY DAY

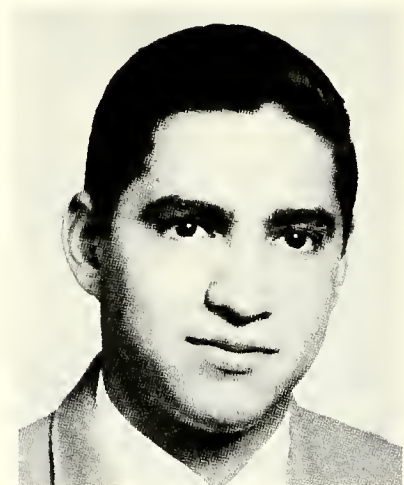

Dr. Frank J. Sinnreich

On June 7, 1970, we lost Dr. Frank J. Sinnreich, who was an Associate Professor in Anatomy, Gross and Neuroanatomy. He was a member of the Class of 1961 at the Baltimore College of Dental Surgery, Dental School, University of Maryland. His constant thirst for knowledge and his love for anatomy inspired many students. We shall miss him.

In Memoriam

On December 18, 1969, a dear friend and classmate, Nathan David Gold, lost his life in a fatal car accident. We find it difficult to accept the fact that one who worked so hard to achieve excellence in our field was so abruptly taken away from us. Everyone who knew him was aware of his sincere interest and dedication to both his fellowmen and the study of dentistry.

It is with deep regret that the Class of 1971 enters the practice of dentistry without the able companionship of Nathan David Gold.
